

Streamlined aesthetics

Exquisite body, exquisitely crafted, with both texture and feel. Smooth lines with simple white instantly, enhance the texture of the space.

Not only for cars

Multi-scene use at any time

Inside the car, bedroom, living room, bathroom, etc.
It can be used where there is formaldehyde, benzene, and peculiar smell

PRODUCT PARAMETER

Product name:	Car air purification
Dimension:	60×60×131.8mm
Material:	ABS+Electronic parts
Product weight:	198g
Rated input:	DC 5V \equiv 260mA
Cowerage space:	$\leq 5\text{m}^3$
Aeroanion concentration:	800W
Executive Standard:	GB/T18801-2008QB /4982-2016

Intimate details

Give you a comfortable experience

01-

**Sensitive
Touch design**

Simple operation
No trouble.

02-

**Large area circulating
purification**

Speed up air circulation

03-

Type-c convenient charging

Multi-channel charging method

Car purifier

Anion | Triple Filter | Portable Mini USB

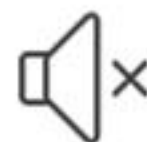

Major function

Features

Negative ion

Silent operation

Small and portable

Triple Clean

Millions of negative ions Work actively

Anion is a kind of anion produced by itself,
it purifies the air, removes dust and sterilizes,
actively capture harmful substances in the air.

Vehicle health motivation

Refreshing and easy to go

Simple and compact design, stably embedded in the cup space of the car. All the way is fresh, escorting health.

Compact design Not take up space

One-key start-stop design, single machine sequence convenient to switch.

Both a purifier And a ambient Light

Beautiful ambient Light,
create a romantic atmosphere.

Purify and maintain fresh air in the car

Eliminate odor and smoke
Breathe fresh air and protect your health

The smell in the car is all fixed Life is more comfortable and healthy

Negative ions can make floating dust , smoke, germs and viruses gather in the room , making it lose the ability to float freely in the air, and quickly fall to purify the air.
